February 12, 2004

Raymond Chen

The lunatics behind [The Annals of Improbable Research](#) and [The Ig Nobel Prize](#) will be [in Seattle tomorrow night, February 13](#). The [meeting schedule](#) lists the AIR presentation as “8:00PM-10:30PM, Special Event: Annals of Improbable Research (open to all registrants), Sheraton Hotel, Third Floor, Metropolitan Ballroom”. The AIR folks said “Open to the public”; maybe they won’t be checking for an AAAS membership card at the door.
