Competitive Scrabble<sup>®</sup> is another game entirely. For example, [here's a game from the 2001 World Championship](#). You can follow it [move-by-move](#), or you can [read the game commentary](#).

The name “Stefan” you see in the commentary is *Wall Street Journal* reporter Stefan Fatsis, author of *Word Freak: Heartbreak, Triumph, Genius and Obsession in the World of Competitive Scrabble Players*, a book that is on my list of “books I really want to read”.
