

# Microspeak: Pricing uplift

---

 [devblogs.microsoft.com/oldnewthing/20080617-00](http://devblogs.microsoft.com/oldnewthing/20080617-00)

June 17, 2008

Raymond Chen

In a conference call with investors last year, investor relations general manager Colleen Healy described the effect of business editions of Windows thus:

As we shared with you previously, Windows Vista business generates over five times the pricing uplift over Windows Vista Home Basic than does Windows Vista Home Premium.

Also known as *profit*.
