

Microspeak: Teaming

 devblogs.microsoft.com/oldnewthing/20081007-00

October 7, 2008

Raymond Chen

At training sessions, you don't participate in *team-building exercises*. No, that's old-fashioned terminology, the sort of thing those old stodgy Web 1.0 dinosaurs would say. The new word is *teaming*.

Note: This Microspeak entry was submitted by a colleague from the UK, so it may be peculiar to the UK dialect of Microspeak.

Pre-emptive clever comment: Verbing weirds language.

[Raymond is currently away; this message was pre-recorded.]
