

This was only a test; if this had been an actual concert...

Raymond Chen

I dreamed that there was a fire in Benaroya Hall during a concert. The flames swirled overhead up by the ceiling. The exit doors had been blocked by security, so people flowed from door to door looking for a way out. Ha-ha, it was just a drill, and the flames were pyrotechnics.

This dream brought to you by *Great Ideas in Public Safety*.
