

# Malware Targeting Pulse Secure Devices

---

 [us-cert.cisa.gov/ncas/current-activity/2021/07/21/malware-targeting-pulse-secure-devices](https://us-cert.cisa.gov/ncas/current-activity/2021/07/21/malware-targeting-pulse-secure-devices)

An official website of the United States government [Here's how you know](#)

## Official websites use .gov

A **.gov** website belongs to an official government organization in the United States.

## Secure .gov websites use HTTPS

A **lock** (🔒) or **https://** means you've safely connected to the .gov website. Share sensitive information only on official, secure websites.

[CISA.gov Services Report](#)

---

As part of CISA's [ongoing response](#) to Pulse Secure compromises, CISA has analyzed 13 malware samples related to exploited Pulse Secure devices. CISA encourages users and administrators to review the following 13 malware analysis reports (MARs) for threat actor techniques, tactics, and procedures (TTPs) and indicators of compromise (IOCs) and to review CISA's Alert [Exploitation of Pulse Connect Secure Vulnerabilities](#) for more information.
